# A Case of Practice What You Preach — Demonstrated

[F you were to run an advertisement a mile long in every city in the country for just one day and then quit, a temporary sensation would be all that you would get out of it.

SUCCESSFUL advertising is nothing more than a study of human nature interlocked with common sense. When you read this ad. an acquaintance is immediately formed, but if we were not to meet you again for a long time you would probably forget us.

[T is true a Directory is not published every week or every month, but our mailing lists, so classified to meet the individual requirements of everyone, are always ready. Realize too, that it is direct circulation you pay for—picked prospects. Can't you see where a catalogue, circular, or letter sent out to these prospects of yours regularly would form that acquaintance into a friend? What are you selling and who do you want to reach?

RECOMMENDATION—We do it ourselves and it works great.

## INTRODUCTORY

The Thirty-ninth edition of Ottawa City Directory is submitted with our assurance that it will compare favorably in point of completeness and accuracy with previous editions.

Among the suburbs it will be noticed that we have included Ridgmont which lies south of Billing's Bridge and connected with the City by an hourly motor bus line, and after the classified portion of Hull Directory we have included the Aylmer Road District; also the village of Gatineau Point, both of which are important suburbs of that city.

## POPULATION

The Federal Census of last spring gave Ottawa a population of only 86,340 while the directory estimate was 90,799. We explained in our Introductory last year that although we did not at the time know the Census figures we believed our estimate was a very close one. This has been proved by the Civic Assessment figures of last October, which gave the City proper a population of 90,520—4,180 greater than the Federal figures and only 299 less than ours. The present volume contains 35,215 individual names by actual count, exclusive of firms, corporations, etc. Using our ordinary multiple of  $2\frac{3}{4}$  to represent married women and children under directory age, we have an indicated

## POPULATION OF 97,391

for the City of Ottawa at the end of May 1912.

We would again call attention to the pamphlets which are published by the Publicity department of the City Corporation and distributed gratis. These contain concrete facts in regard to the city which show it to be not merely a residential one, but one which affords exceptional facilities for business locations.

We thank our patrons for their continued support.

## A Case of Practice What You Preach——Demonstrated

IF you were to run an advertisement a mile long in every city in the country for just one day and then quit, a temporary sensation would be all that you would get out of it.

SUCCESSFUL advertising is nothing more than a study of human nature interlocked with common sense. When you read this ad. an acquaintance is immediately formed, but if we were not to meet you again for a long time you would probably forget us.

IT is true a Directory is not published every week or every month, but our mailing lists, so classified to meet the individual requirements of everyone, are always ready. Realize too, that it is direct circulation you pay for—picked prospects. Can't you see where a catalogue, circular, or letter sent out to these prospects of yours regularly would form that acquaintance into a friend?

RECOMMENDATION—We do it ourselves and it works great.

# **A Case of Practice What You Preach — Demonstrated**

**I**F you were to run an advertisement a mile long in every city in the country for just one day and then quit, a temporary sensation would be all that you would get out of it.

**SUCCESSFUL** advertising is nothing more than a study of human nature interlocked with common sense. When you read this ad. an acquaintance is immediately formed, but if we were not to meet you again for a long time you would probably forget us.

**I**T is true a Directory is not published every week or every month, but our mailing lists, so classified to meet the individual requirements of everyone, are always ready. Realize too, that it is direct circulation you pay for—picked prospects. Can't you see where a catalogue, circular, or letter sent out to these prospects of yours regularly would form that acquaintance into a friend? What are you selling and who do you want to reach?

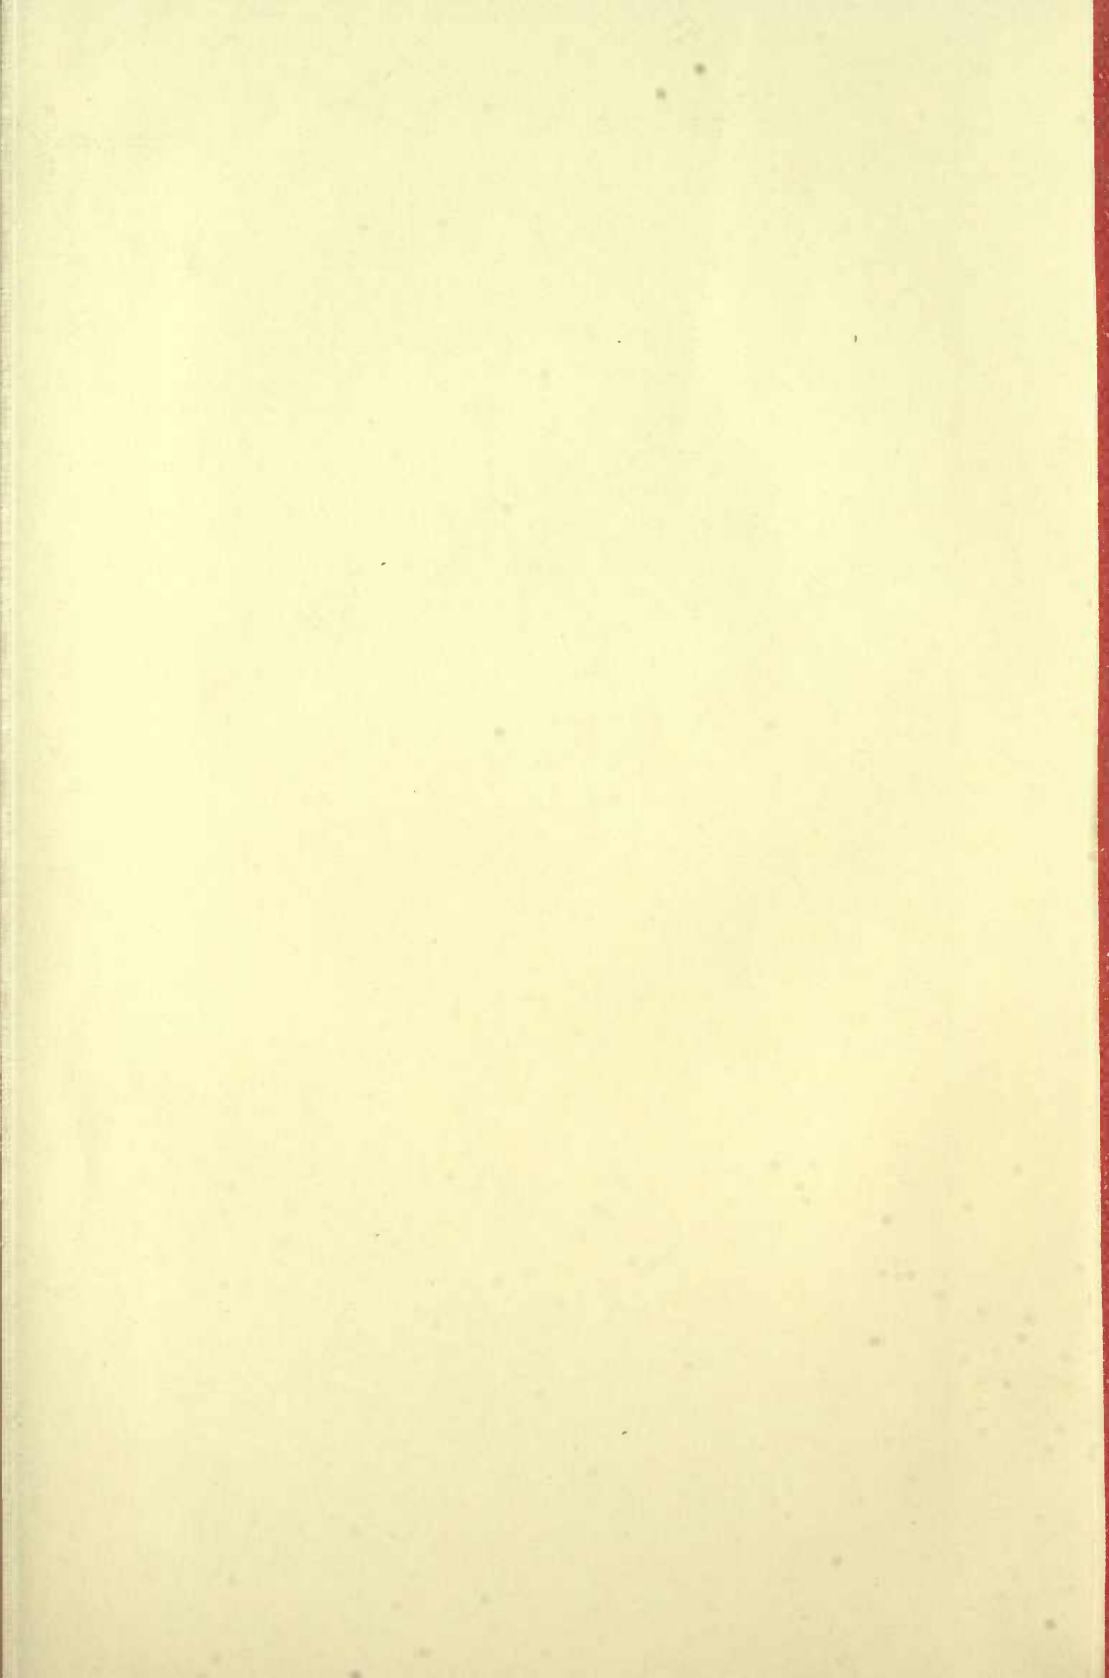

**RECOMMENDATION**—We do it ourselves and it works great.
